PROFILE

Hi, I'm Jahangir Hussen, a passionate Web Designer and WordPress Developer with expertise in creating modern, user-friendly websites. I specialize in responsive design, customize WordPress themes, and seamless functionality to help businesses thrive online. I'm excited to contribute and grow within a forward-thinking team.

PROJECT

Ecommerce Website

- This eCommerce website offers a seamless shopping experience, utilizing HTML5 and CSS3 for a responsive and visually appealing design.
- Interactive features are powered by JavaScript and jQuery, enhancing user engagement and functionality.
- Bootstrap ensures a mobile-friendly layout, making the site accessible across all devices.
